

## Sponsorship Package Spring 2019

### What's HackUVic?

The UVic Web Design and Development Club is organizing **HackUVic**, the 4th iteration of our annual hackathon, this March held at the University of Victoria in the Engineering and Computer Science building (ECS) and we would like you to be involved! We're seeking sponsorship for Spring 2019.

### What's Changed?

This year our theme is **What The World Needs Now**, *exploring our universe, improving lives and safeguarding our future*. We plan to accommodate more people, give out more swag and bigger prizes, provide more options for food and snacks, and have more fun!

### Why?

Hackathons at universities across Canada and the US give students the opportunity to meet friends, expand their skills and connect with industry. HackUVic's goal is to provide students from UVic and surrounding areas that experience at Vancouver Island's only official Major League Hacking (MLH) event.

<b>Provide a Prize</b>	✓	✓	✓	✓
<b>Send Recruiters or Mentors</b>	✓	✓	✓	✓

\* Limited spots available, first come first serve

## Details

### Prizes & Swag

We need prizes for our contestants! If your company donates a prize, it will be branded as your prize and you'll be given the option to present it during the awards ceremony. We'd also love to give away your stickers, lanyards, merch, and clothing to our hackers.

### Food and Branded Meal

We're providing meals and snacks throughout the hackathon to all members for free. If you are a Gold sponsor or higher we'll make sure our hackers know who's sponsoring the food, snacks, or drinks by putting your company's name and/or banner at the food table(s).

### Recruiters, Mentors, and Judges

We find that having a representative(s) from your company very helpful to our attendees. However, this is optional. Mentors assist attendees with code and provide their experience in the tech community/industry. Judges are a part of selecting the winners in each award category.

If you want more information, you can contact UVic Web Design and Development Club's representative, Amy Hanvoravongchai, by either phone or email using the contact info below.

Thank you so much for your support!
